Alan Macy

Santa Barbara Center for Arts Science and Technology

Dear Alan,

I was so happy to meet you and hear of your plans for the Center of Arts Science and Technology. It is a wonderful concept to support the arts in Santa Barbara as well as an opportunity for collaboration between the arts and science.

It is a most difficult time for everyone in our tight economy, and the collaborative support that has arisen will assure that both the arts and sciences survive.

We are particularly excited about the possibilities of mentorship and education.

We will be happy to support you in any way we can.

Julie McLeod
